Plano, TX 75086

# PHILLIP HUFFINES

FOR TEXAS SENATE

A STRONG,  
FREE TEXAS-

a government that  
works for you

Phillip's first business in Collin County, when he was 19, at the intersection of Legacy Road and 121 - west of the DNT.

Learning to swim at the family farm located at Midway and Plano Parkway in the 1960's.

## DEEP LOCAL ROOTS

As a fifth generation Texan, Phillip's relationship with Collin County started long before he opened his first business, a firework stand on Hwy 121. He has fond childhood memories of driving with his father between their family business and their country property in what would become Plano; Phillip watched Collin County develop in front of his eyes, in more than one way.

The Huffines Family has been proudly involved in Denton and Collin for over 90 years with family owned car dealerships and real estate developments. For the last 30 years, Phillip and his twin brother, Don, have been developing Collin County, building infrastructure, roads, developing homes, and securing business development – such as IKEA and the Frisco Rough Riders Baseball Team.

## LEADERSHIP *for the* FUTURE OF OUR FAMILIES

Collin County has been rapidly growing for many years, with no plans for slowing down. Phillip not only knows how to plan and prepare for this growth, but to encourage progress without losing the identity of the unique cities that make up Senate District Eight.

As a proven conservative involved in the Republican Party for the last 40 years, Phillip has advocated for smaller government, lower taxation and regulation, and freedom from federal overreach.

Phillip and his wife of 31 years, Holly, have three children, Haley, Hayden, and Garrett. Phillip enjoys hunting and the outdoors and, for the last 25 years, has been passionate about teaching business classes at high schools. As a volunteer and board member with Junior Achievement, Phillip encourages students to start their own businesses and inspire their entrepreneurial spirit.

## GETTING GOVERNMENT OUT OF OUR HEALTHCARE

The disaster of Obamacare shows what happens when politicians and bureaucrats meddle in our healthcare decisions. Phillip supports fully repealing Obamacare and replacing it with a market-based approach that reduces regulations and places decisions back into the hands of doctors and patients—and in the state Senate, he'll fight to stop government interference in Texans' healthcare choices.

# STOPPING ILLEGAL IMMIGRATION

As your voice in the Texas Senate, Phil will fight to seal our border and stop illegal immigration from undermining our laws and sapping our resources.

We must be proactive in using Texas' resources to stop the flow of illegal immigrants, eliminate sanctuary cities, and stop automatic citizenship for children of illegal immigrants and other benefits that give incentives to enter our country illegally.

## REMOVING RED TAPE, BOOSTING TEXAS BUSINESSES

Phillip started his first business in high school, and the Huffines family has been creating jobs and driving development in Collin County for decades. The entrepreneurial spirit is what has made Texas prosperous - but too often today it's stifled by burdensome bureaucratic red tape.

The fewer regulatory hoops Texas businesses have to jump through to create jobs, the more Texas' economy will thrive. As your state senator, **Phillip will work to help Texas businesses grow without unnecessary government regulations holding them back.**
